Simple Numbers Summit is the conference for data-driven entrepreneurs.

The Simple Numbers Summit brings together a dynamic community of small business owners and entrepreneurs to share ideas, spark meaningful conversations, and build lasting relationships with people who truly understand the entrepreneurial journey. Through industry leader-led sessions and hands-on workshops, you'll gain practical insights, discover actionable strategies, and strengthen the financial discipline needed to grow with confidence.

Hosted annually in cities across the United States — beginning with our inaugural event in Austin, Texas — the Summit is open to business owners and founders from every industry and at any stage of growth. No matter your field, service, or company size, the Simple Numbers Summit is designed to support and empower you.

Small business owners and entrepreneurs will walk away with practical insights, proven strategies they can put to work immediately, and a stronger foundation of financial discipline — all delivered through engaging sessions and interactive, hands-on workshops.

**The Simple Numbers Summit is sponsored by
CRI Simple Numbers.**
